HYPER EDGE

Dual counter-rotating edge grinder ø200mm, ideal for preparation work, removing adhesives and resins, sanding, and polishing in tight spaces flush to the wall. Grinding and polishing flush to the wall with extreme precision and in complete comfort will no longer be a problem, thanks to the pivoting and height-adjustable wheels, front guide wheels, and convenient tilting handle.

MAIN BENEFITS:

- **Compact Design:** The Hyper Edge is specifically designed for working in tight spaces and flush to the wall, allowing you to tackle projects in confined areas with ease.
- **Precision:** With the grinder's precise control and adjustable features, you can achieve high levels of precision in your sanding and polishing tasks, ensuring excellent results.
- **Comfort:** Hyper Edge is equipped with features to enhance comfort during operation. The pivoting and height-adjustable wheels, front guide wheels, and tilting handle make it easier to maneuver and operate the tool for extended periods without straining your hand or wrist.
- **Ease of Use:** The grinder is designed with user-friendly features, making it accessible even for those with limited experience. The intuitive controls and ergonomic design ensure a hassle-free grinding and polishing experience.
- **Efficiency:** The dual counter-rotating action of the sander maximizes its effectiveness in removing coatings, adhesives, and achieving a smooth finish. This allows for efficient and time-saving completion of projects.
- **Uniform Results:** Irregular sanding can create visible imperfections that spoil the final finish. With Hyper Edge, you can achieve consistent results across the entire surface, reducing the risk of irregularities and ensuring a flawless finish that enhances the overall aesthetics of the floor.
- **Dust Extraction:** Hyper Edge is equipped with an effective dust extraction system. This not only keeps the work area cleaner but also helps maintain a healthier environment by reducing the inhalation of fine particles.
- **Water-Efficient Operations:** Thanks to the 8-liter water tank that releases water directly to the center of the tools, Hyper Edge enables work to be done without wasting water.

*The price includes: 8lt tank, Velcro pad holders ø200mm (x2) and Splash guard.

REDEFINING PRECISION GRINDING IN COMPACT SPACES

The innovative design, featuring an elongated and compact head, makes Hyper Edge extremely effective for grinding in tight and hard-to-reach areas, such as industrial shelving. Its optimized configuration ensures precise and fast action, guaranteeing high-quality results even in complex operational contexts.

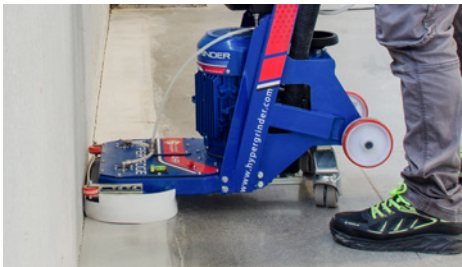

PERFECT INTEGRATED VACUUM SYSTEM

Thanks to the convenient inlet port, it will be possible to connect the Hyper Edge to any vacuum cleaner, allowing for dust-free dry operation.

HANDLE TILT ADJUSTMENT

The practical handle tilt adjustment system allows you to set it in the most comfortable and ergonomic position.

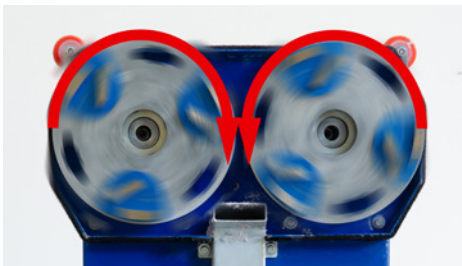

PERFECT FLUSH-TO-WALL

The guide wheels for the wire wall will allow the operator to carry out a perfect sanding and polishing job without damaging or dirtying the wall and baseboard.

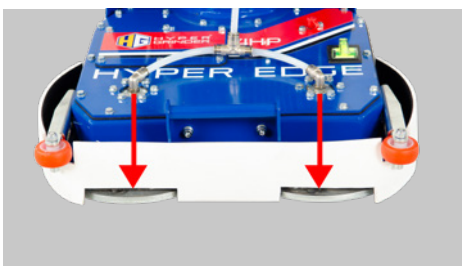

ADJUSTABLE WHEEL CART

The adjustable wheel cart provides the ability to balance the angle of the abrasives in relation to the floor. It allows for working perfectly flat or adjusting the machine for more aggressive work at the tip.

2 COUNTER-ROTATING HEADS - Ø200mm

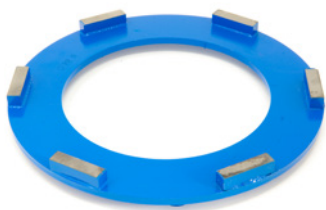

Hyper Edge is equipped with 2 counter-rotating heads with ø200mm. It allows you to use any ø200mm tool with Quick Attack attachment or Quick Lock trapezoidal tools. Perfectly balanced, it offers high performance for uniform processing and perfect work close to the wall. Quick and secure tool attachment without the need for tools.

NO WATER WASTE

Hyper Edge is equipped with a water release system at the center of the tool to optimize water usage without any waste.

FLOOR PREPARATION TOOLS

HG A - ø200mm - (8") 6 SEGMENTS

Diamond discs for **ABRASIVE CONCRETE**.

Guarantees high removal by reducing tool consumption.

200859HGA6S	HG A - 00	#20
200860HGA6S	HG A - 0	#40

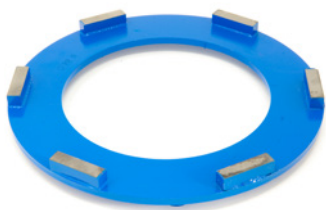

HG S - ø200mm - (8") 6 SEGMENTS

Diamond discs for **SOFT CONCRETE**.

Guarantees high removal by reducing tool consumption.

TOOLS FOR COATING AND GLUE REMOVAL

BT ROUND - 200mm - (8") 5 SEGMENTS

Extremely aggressive cylindrical tools for **removing resins, glues and paints**. They are also a good choice for smoothing hard concrete. Do not use to on abrasive concrete.

HG200719BTR5S	BT00	#30/40
---------------	------	--------

TCK - 200mm - (8") 6 SEGMENTS

Quickly removes corrugations, mastics, varnishes, film and epoxy resins, self-leveling and various coatings on abrasive concrete floors. Recommended for leveling and floor preparation on soft and abrasive concrete. Long life.

TCK200868HG	TCK - 00S
TCK200869HG	TCK - 00
TCK200870HG	TCK - 0

BT ROUND - 2 SEGMENTS - QUICK LOCK

Extremely aggressive cylindrical tools for **removing resins, glues and paints**. They are also a good choice for smoothing hard concrete. Do not use to on abrasive concrete.

700959	BT00	#30/40
--------	------	--------

PCD SCRAPER - QUICK LOCK

For resins and thick coatings removal. Manufactured with a PCD polycrystalline diamond segment plus a diamond sector with TCK inserts. Removes all types of coatings such as paint, glue, epoxy resin, acrylic, screed residues, adhesive tar and elastic material. Do not use on fresh or abrasive concrete floors.

700837	PCD SCRAPER CLOCK
--------	-------------------

HYPER PCD SCRAPER - QUICK LOCK

Quickly **removes all types of coatings such as paint, glue, epoxy resin, acrylic, screed residues, adhesive tar and elastic material**. Also ideal for quickly exposing the aggregate in concrete floors and for leveling and smoothing irregular and abrasive floors. Very resistant even on abrasive floors. Leave the surface scratches uniformly

700838	HYPER PCD
--------	-----------

TCK - QUICK LOCK

Quickly removes corrugations, mastics, varnishes, film and epoxy resins, self-leveling and various coatings on abrasive concrete floors. Recommended for leveling and floor preparation on soft and abrasive concrete. Long life.

700638

TCK - 000

TRANSITIONAL DIAMOND DISCS

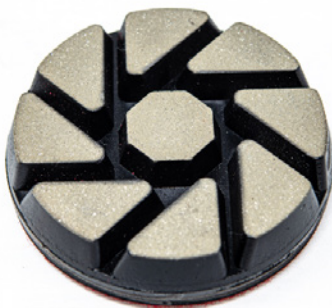

CERY CERAMIC - ø3"/75mm

Great polishing transitional tool with ceramic material for faster scratch removal from metal grits. Ideal usage in the case where the user needs to cut down on steps in honing or remove grout. Ideal for both glossy and satin finish. Ceramic Bond can be used with water or during dry processes. Ideal tools for scratch removal, grinding and polishing auto-leveling and concrete floors.

CERYSOFT0		CERY SOFT - 0	#30

CERYMEDIUM3		CERY MEDIUM - 3	#200

CERY CERAMIC SUPER - ø3"/75mm

Ceramic Transitional Diamond tools, the industry's premier solution for swiftly eliminating scratches caused by metal bonds, showing particular effectiveness on hard surfaces.

These tools outpace the traditional hybrid series in scratch removal speed. Moreover, their significant thermal resistance ensures prolonged durability while retaining aggressive efficiency. Cery disc can be used with water or during dry processes. Ideal tool for scratch removal, leveling out irregularities, grinding and polishing terrazzo, marble, granite and concrete floors.
