MULTI STRIPPER 330

- >> MOTORIZED ADVANCEMENT
- >> SURFACE REMOVAL
- >> ADHESIVE AND PAINT STRIPPING

Blade inclination adjustment

MULTI STRIPPER 330 is a high-performance machine, specially designed for stripping and removing materials such as vinyl, linoleum, cork, glued carpet, wooden blocks, tiles, non-adhesive membranes, and sports surfaces.

A standout feature of this machine is its durable blade that effortlessly slides beneath tiles, quickly detaching them from the adhesive. With its motorized advancement system, the operator will find the work less strenuous, only needing to steer and guide the machine.

The Multi Stripper 330 offers several functionalities making it highly adaptable to various situations. The ability to adjust the blade angle allows it to cater to specific types of flooring. Moreover, the robust oversized wheels ensure maximum stability and mobility on any surface.

An adjustable-height handle makes this machine extremely comfortable to use.

Given these features, the Multi Stripper 330 proves particularly suitable for easing lengthy, labor-intensive tasks in large commercial and industrial areas.

Professional machine for surface removal and stripping. Equipped with motorized traction suitable for any surface type.

Features:

- Working width of 330 mm (13")
- Efficient removal of paints and surfaces even under challenging conditions.
- Machine with automatic traction for easy advancement on the surface.
- Handle height adjustable for greater operator comfort.
- Manually operated clutch for machine advancement/stop.
- Minimal operator fatigue.
- Robust and extremely powerful construction.
- Simple clamping system for quick and easy blade changes.
- Adjustable blade angle to fit various applications.

Typical Applications:

- Removal of sheet vinyl, linoleum, cork, glued carpet.
- Wooden tiles, tiles, non-adhesive membranes, sports surfaces.
- Removal of excess materials in production areas.
